Athens Turfgrass Research and Education Center

Crop and Soil Sciences is a leading academic department in the College of Agricultural and Environmental Sciences at the University of Georgia. The Department is committed to providing the highest standard of excellence in education, research, and engagement with current and emerging crop and soil science issues. The Athens Turfgrass Research and Education Center is the newest University of Georgia turfgrass facility in the state. Started in 2014, the ATREC is a continuously growing facility focused on the education of traditional (undergraduate and graduate Turfgrass Management) and non-traditional students as well as the conduction of cutting-edge research in the area of environmental turfgrass science.

To learn more about the Department of Crop and Soil Sciences, contact:

- Turfgrass Management Coordinator: gmary@uga.edu  Dr. Gerald Henry
- Academic Advisor: sturgill@uga.edu  Ms. Vivienne Sturgill
